Art Unit: 1711

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-9, 19-46, drawn to polythiophene having having one halogen end group and one hydrogen end group and the process for making it, classified in class 528, subclass 378.
- II. Claims 10-18, 47-59, drawn to polythiophenes having two hydrogen end groups and the process for making it, classified in class 528, subclass 378.
- III. Claims 111-118, 125, drawn to conductive copolymers, classified in class 525, subclass 10.
- IV. Claims 60-110, 119-124, drawn to modified polythiophene and the modification process, classified in class 525, subclass 535.

2. The inventions are distinct, each from the other because:

3. Inventions I, II and III are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions have different modes of operation and different effects. The processes of Groups I and II are different and result in different products. The copolymer of Group III isn't limited to the polythiophene products of Groups I and II. Group IV will be examined with the elected invention.

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Art Unit: 1711

5. During a telephone conversation with W.Cuss on 10-17-02 a provisional election was made without traverse to prosecute the invention of Groups I and IV, claims 1-9, 19-46, 60-110, 120-124. Affirmation of this election must be made by applicant in replying to this Office action. Claims 10-18, 47-59, 111-118 and 125 are withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

7. Claim 71 is objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. This claim fails to limit the preceding claims which already contain all the limitations of this claim.

8. Claims 91 and 92 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

These claims are confusing because it appears that they should depend from claim 10.

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Rachel Gorr whose telephone number is (703) 308-
